4	AI Model Configuration for Demonstration Remote configuration of the AI engine using Kronospan-relevant prototype schema and queries to simulate production-like question-to-query capabilities.	1,00	80,00	80,00
			Sub Total	450,00
			Total	€450,00

Balance Due

€450,00

We appreciate the opportunity to collaborate with Kronospan on this innovative initiative. This demonstration marks a key step toward unlocking powerful data insights through secure, self-service tools. We are committed to delivering value through every phase of this process and look forward to a productive and long-term partnership as we work together to modernize and streamline internal business intelligence.
